**Squeaky clean!**

My auntie has got some lemon trees in her garden. There are a lot of lemons every year and we always make a lot of lemonade ... there are a lot of bottles of lemonade! We make some delicious lemon cake, too!

A lot of the products and things we use to clean our houses can damage the environment. So, to help the environment and to use more of the lemons, we use the lemons to help us clean.

Look, I can mix lemons with water in a bottle ... and now I can help to clean the windows and it's good for the environment! They're so clean, they squeak!
