## First conditional

- We use the first conditional to talk about a possible action or situation in the future, and the result or effect that follows.

*If I have time this afternoon, I'll plant some flowers.*

If clause = *If I have time this afternoon,*

Result clause = *I'll plant some flowers.*

- We form the first conditional with the *if* clause + result clause (or result clause + *if* clause).
- We form the *if* clause with *If* + subject + present simple. We form the result clause with subject + *will* ('ll) / *will not* (won't) + infinitive without *to*.

Affirmative, negative and yes/no questions						
	<i>If</i>	Subject	Present simple	Subject + <i>will</i> / <i>won't</i>	Infinitive without <i>to</i>
