

# CUADERNILLO de ACTIVIDADES

ATENCIÓN

## Introducción

Este cuadernillo digital ha sido diseñado como una herramienta práctica para acompañar a los docentes de nivel primario en la planificación de actividades que favorezcan el desarrollo y fortalecimiento de la atención en sus estudiantes. A través de propuestas lúdicas, creativas y significativas, se busca estimular la concentración, la observación, la memoria y otras funciones cognitivas fundamentales para el aprendizaje.

Las actividades están pensadas para adaptarse a diferentes edades y contextos escolares, promoviendo un abordaje integral que contemple la diversidad y fomente la participación activa en el aula. Esperamos que este material sea un recurso valioso en la tarea diaria de enseñar, acompañar y motivar a los niños y niñas en su proceso de aprendizaje.

# Actividades

- Encontrá las diferencias
- Buscá y encontrá
- Sopa de dibujos
- Encontrá a...
- ¿Cuáles son iguales?
- ¡A colorear!
- Laberintos
- Sombras
